

2009 Wine and Grape Symposium

Vigneron Specialty Products was a Vendor at the 2009 Wine and Grape Symposium in Sacramento, California - the largest show for Wine and Grape Growers in the United States. Regular demonstrations of the XpressFill drew many passersby in to view the machine, and feedback was very positive. Interested parties were impressed with its supreme accuracy and ease of use. Many visitors to the Vigneron booth have subsequently chosen the XpressFill bottling system as their affordable and convenient solution for filling wine, olive oil and distilled spirits, as well as many other applications.
